

I remember

Ultimatum

Since the dawn of time
I've been here waiting for
What I can't remember
Or recall

Just a flashes of the yesterday
It seems so far away
For me now
Remembering the yesterday
Flashes of my life
Right before my eyes
I really can't remember

I can see it right there
It is mocking at me
Trying to reach it
With all my might
But it's not there
Remembering the yesterday
Flashes of my life
Right before my eyes
I really can't remember

Remembering the yesterday
Flashes of my life
Right before my eyes
I really can't remember

I can't remember
Yesterday

Remembering the yesterday
Flashes of my life
Right before my eyes
