

## Shine on

## Ultimatum

Feeling alone, left to the dark  
Still shining bright, your future ahead  
Bridges rebuild, nothing to lose  
Just let it shine, your light of the life

I try to convince you  
To rise on your wings  
Rise on, just fight on, 'cause you can

Shine on, 'cause you can through the night  
Let it shine in the sky  
Tonight we rise forever  
Together we will shine

I try to convince you  
To rise on your wings  
Rise on, just fight on, 'cause you can

Shine on, 'cause you can through the night  
Let it shine in the sky  
Tonight we rise forever  
Together we will shine

Shine on  
Shine on  
Shine on
