

Truth of the Universe

Ultimatum

I wait for moment to arrive
I wait for train to pass me by

So the stream of time goes by
And I hail
And take the train that leads me
To the place where I

Have found the truth of universe
From the center of the time
Where I have found my destiny
Just to see how this will ends

And I enter to the hall,
Not for me, to heal your pain

Darkness of the universe
Makes you numb
And the shadows of the past
Won't let you go

I have found the truth of universe
From the center of the time
Where I have found my destiny
Just to see how this will ends

Truth of Universe

I open the book, Blank pages
I go back to door, take you away

As the sun fades and stars light the sky
And moon is high in the sky
To the shore I walk with you, holding hands
I guide you past misery and pain

I'm staring out of time
Come with me
In the dark blue stream

Leave the shadows of your days to past
Leave them be
Let the future shine on you, oh I
Have found the truth of universe
From the center of the time
Where I have found my destiny
Just to see how this will end

Truth of Universe

In the center of the time
You'll define your destiny

I'm staring out of time
Come with me
In the dark blue stream
