

BOY (Feeling Good, Feeling Better)

Ultra Naté

When you thought you had me figured
And you knew it was a loss
So you tried to take my happy
Even when your love was gone

Boy
I'm flying like a satellite
Flying through a starry night
I'm feeling good
I'm feeling better

Boy
I'm flying like a satellite
Flying through a starry night
I'm feeling good
I'm feeling better

You can't stop my upward trajectory
Mmm...
You can't change my higher destiny
Yeah

Boy
I'm flying like a satellite
(Flying like a satellite)
Flying through a starry night
(Flying like a starry night)
I'm feeling good
I'm feeling better
(Flying through this starry night)

Boy
(Boy, boy)
I'm flying like a satellite
Flying through a starry night
(Flying through a starry night)
I'm feeling good
I'm feeling better
(Feeling good I'm feeling better)

Feeling good
I'm feeling better
Starry night
Starry night
Flying through this starry night

Feeling good
I'm feeling better
Starry night
Starry night
Flying through this starry night

Boy
(You can't...)
I'm flying like a satellite
(You can't knock me out my space)
Flying through a starry night

I'm feeling good
I'm feeling better
(Working so hard, so hard for victory)
Boy
I'm flying like a satellite
(You can't change my ultimate destiny)
Flying through a starry night
I'm feeling good
I'm feeling better
(Yeah yeah yeah yeah yeah...)

Boy
I'm flying like a satellite
Flying through a starry night
I'm feeling good
(I'm feeling good I'm feeling better)
I'm feeling better

Boy
(And boy)
I'm flying like a satellite
Flying through a starry night
(Feeling oh so good tonight, I'm good tonight)
I'm feeling good
I'm feeling better
(Feeling good I'm feeling better, yeah)
