

# FUN

Ultra Naté

Ooh, uh, hey, yeah (ha, ha, ha, ha)  
Uh, I, me, me, yeah  
Oh!

Who turned the lights out?  
Who turned the party out?  
Who stopped the fire?

Who's started bangin'  
Bitchin' and complaining?  
Why've they stopped us playing?  
We were having fun (we were having fun)

I just wanna have fun  
More and more and more fun  
I just wanna have fun  
I just wanna have fun  
More and more and more fun  
I just wanna have fun  
Is that so wrong?

When the world is falling apart  
And you don't wanna deal  
You wanna close your eyes and run  
When you just gotta turn off the news  
And tune out all the blues  
Let the music remind you who you are

I just wanna have fun  
Is that so wrong?  
I just wanna have fun  
Is that so wrong?

Who turned the volume down?  
Who turned the gauge around?  
Who let the rage out?

Who's started hiding  
Selfish and denying?  
Why've they stopped us vibing?  
We were having fun

Who turned the lights out?  
Who turned the party out?  
Who stopped the fire?

Who's started bangin'  
Bitchin' and complaining?  
Why've they stopped us playing  
We were having fun (we were having fun)

I just wanna have fun (more and more fun)  
More and more and more fun (fun)  
I just wanna have fun, yeah, yeah  
I just wanna have fun (fun)  
More and more and more fun (more and more fun)  
I just wanna have fun

Is that so wrong?

When the world is falling apart  
And you don't wanna deal  
You wanna close your eyes and run  
When you just gotta turn off the news  
And tune out all the blues  
Let the music remind you who you are  
Who you are

I just wanna have fun  
Just wanna have some fun

Feeling it all over the world  
And the feeling got you down (I just wanna have fun)  
Gonna take a new direction (more and more and more fun)  
And the music's nice and loud (I just wanna have fun)

I just wanna have fun (I just wanna have fun)  
More and more and more fun (fun, fun)  
I just wanna have fun (fun, fun)  
Is that so wrong?

When the world is falling apart  
And you don't wanna deal (ever, ever)  
You wanna close your eyes and run  
When you just gotta turn off the news  
And tune out all the blues  
Let the music remind you who you are

I don't wanna feel blue  
I don't wanna feel blue  
Just wanna have some fun  
I just wanna have some fun
