

# Love's The Only Drug

Ultra Naté

Gimme one, gimme two, gimme all of you  
I need the things that make you smile  
Picture this: you and me high on ecstasy of what we could be

Love's the only drug  
Love's the only drug  
The only drug for me  
Can't you see?  
Can't you see?

Let's take a long ride deep into the night  
On a fantasy 'til the sunrise  
Call on me, don't you be afraid  
I'm here for you all the way

Love's the only drug  
Love's the only drug  
The only drug for me  
Can't you see?  
Can't you see?

We'll play like children again  
As in laugh away our cares  
Anything we dream we can  
They can happen if we dare

Tonight we'll take our chances  
On anything we've ever did  
And when we're together  
We'll be all we ever need

Love's the only drug  
Love's the only drug  
The only drug for me  
Can't you see?  
Can't you see?

Love's the only drug  
Love's the only drug  
The only drug for me  
Can't you see?  
Can't you see?
