

NEW LIFE (Running)

Ultra Naté

Here I come, once again
Just because, I need to get away
From a crash, giving up
That's what it was
Can't wait another day (Can't wait another day)

I'm running from pain that's in my head
I'm running
I'm running from pain all night
I'm running on faster to a new life
I'm running from pain that's in my head
I'm running
I'm running from pain all night
I'm running on faster to a new life

I'm running from pain that's in my head
I'm running
I'm running from pain all night
I'm running on faster to a new life
I'm running from pain that's in my head
I'm running, I've got to stay ahead
I'm running from pain all night
I'm running on faster to a new life

From pain that's in my head
From pain that's in my head
From pain that's in my head
From pain that's in my head

From pain that's...
From pain that's...

I'm running
I'm running
I'm running
I'm running
