

No one wants to live without a purpose
Wanna live the life you're deserving
We caught up in some bad circumstances
Does anybody feel a little nervous?
Does anybody feel a little nervous?

Head spinning like a broken record
Got a lotta trouble in my mental
Insufficient funds in your bank roll
They don't really care about that though

I can't cry
'Cause everybody knows
I can't cry

A different set of rules for the rich M'FK's
A different set of rules for the rich M'FK's
A different set of rules for the rich M'FK's
A different set of rules for the rich, the rich

So you got a little blue funding
When it's over, how you gonna run it?
Everybody out here wondering
Is tomorrow even coming?

But I can't cry
'Cause everybody knows

A different set of rules
A different set of rules for the rich
A different set of rules for the rich

A different set of rules for the rich M'FK's
A different set of rules for the rich M'FK's
A different set of rules for the rich M'FK's
A different set of rules for the rich, the rich

A different set of rules for the rich M'FK's
A different set of rules for the rich M'FK's
A different set of rules for the rich M'FK's
A different set of rules for the rich, the rich

For the rich, for the rich
A different set of rules
For the rich, for the rich
A different set of rules for the rich
A different set of rules
'Cause everybody knows
