

Careless and Free

Ultraviolet Sound

In my mind the water colors
Start to design the perfect picture
The stars a line and time is on my side
I wanna feel alive
Like it's the last day of my life

And fall head over heels
Not be told how to feel
Running wild in the streets
Careless and free
Listen to my heart
Live inside my art
And the music in my head
Will never stop

In my eyes the blue print of life
Take shape and size
And I can't deny
When the stars a line and time is on my side
I wanna take this ride
Like it's the last day of my life

And fall head over heels
Not be told how to feel
Running wild in the streets
Careless and free
Listen to my heart
Live inside my art
And the music in my head
Will never stop

Fall head over heels
Not be told how to feel
Running wild in the streets
Careless and free
Listen to my heart
Live inside my art
And the music in my head
Will never stop

Never stop
Never stop
Listen to my heart
Live inside my art
And the music in my head
Will never stop
Never stop
Never stop

Ooh, can I rise above the pressure?
Painting my adventure
I wanna feel this forever
And never say never

I'd fall head over heels
Not be told how to feel
Running wild in the streets

Careless and free
Listen to my heart
Live inside my art
And the music in my head
Will never stop

Fall head over heels
Not be told how to feel
Running wild in the streets
Careless and free
Listen to my heart
Live inside my art
And the music in my head
Will never stop

Oh yeah
Oh yeah
Never stop
Never stop
Never stop
Listen to my heart
