

## Slip Away

Ultravox

Enter me gently, I break in the light  
Cover my eyes, with the rags of my life

Was I dreaming  
Or did you say  
The frontiers are falling  
It's time to be slipping away  
Let's slip away  
Let's slip away

All things fall from me, the bonds and the veils  
All things blow by me, my sorrows have sails

Was I dreaming  
Or did you say  
The empires are fading  
It's time to be slipping away  
Let's slip away  
Let's slip away

What am I to do  
Don't leave me  
What is there to say, I really...

We're just wasting time  
Let the night takes its place  
Colour my eyes with the dusk of this wonderful day

Let's slip away  
Let's slip away

Letters from lovers are lining my grate  
Some came too early and some came too late

Were you speaking  
Or did I say  
The frontiers have fallen  
It's time to be slipping away

As you call me  
My hands they fall open  
My mouth it is frozen  
The chrysalis tumbles  
I'm falling  
Slow motion  
Dissolve
