

# One Last Dance

Ulver

We have seen the burden  
God has laid upon the human race  
All the oppression  
That has taken place under the sun  
He tests us, so that we may see  
We're just like the animals  
All go to the same place  
All come from dust and to dust return  
What can we do other than work  
Sleep and do the best we can?  
People's hearts full of evil  
And no one knows whether love or hate awaits

If two lie down together, they will keep warm  
But how can one keep warm alone?  
God's in heaven and you're on earth  
So let your words be few

We are wolves  
Under the moon  
This is our song  
We have loved  
And we have lost  
We're ready to go  
Oh, one last dance  
In this burning church

We search the ruins  
Slain but standing  
A thousand lamps  
The holy mountain  
The sleeping lions  
All burning sand  
The smell of blood  
Eternal war

We are wolves  
This is our song  
We're ready to go  
Oh, one last dance  
One last dance
