

Down To Earth

UMI

Can't get no sleep
The moon, it knows I
Don't want you to leave
I think you're divine, I
Left the old me
Just to be with you, I try
To be free with you
I'd fall back down to earth
So what you want?

You're killing me softly
Know that you love me
Maybe I'm honestly falling too soon
I'm happy we're grown now
Don't gotta love you on the low now
Can you hit me when you're home?
And I'll come running back to you

I need you to be
Myself again, I
Need to believe
I'm worth the work
I need you to see
Parts of me I hide
Parts of me
I hide away for someone else to find

Of all the stars in the sky that burn
You are the one to bring me back to earth
See, you remind where I came from

So when you're done with work
Just hit me boy, I'll slide
Meditate on you just for the high
Think we met before, another life
So when you want a round two
I could meet you outside

You're killing me softly
Know that you love me
Maybe I'm honestly falling too soon
I'm happy we're grown now
Don't gotta love you on the low now
Can you hit me when you're home?
And I'll come running back to you

I need you to be
Myself again, I
Need to believe
I'm worth the work
I need you to see
Parts of me I hide
Parts of me
I hide away for someone else to find
