

Now that this is over  
All that's left is broken pieces, oh  
Swimming in your waters  
But I'm tryna find my way back home

I thought that we were stronger  
I prayed a little longer  
I should've known you better than this  
Got lost in your shit  
I think that this is my fault  
I'm running out of friends to call  
I know I shouldn't let you back in  
Don't want this to end 'cause

Rivers running deep  
This river's running deep inside me  
Rivers running deep  
This river's running deep inside me  
Deep inside me  
Deep inside me  
Deep inside me  
Deep inside me

Hate to see you happy  
'Cause I don't know how to be alone, oh oh  
Know we're different people  
But I don't know why you let me go, oh oh

I thought that we were stronger  
I prayed a little longer  
I should've known you better than this  
Got lost in your shit  
I think that this is my fault  
I'm running out of friends to call  
I know I shouldn't let you back in  
Don't want this to end 'cause

Rivers running deep  
This river's running deep inside me  
Rivers running deep  
This river's running deep inside me  
Deep inside me  
Deep inside me  
Deep inside me  
Deep inside me
