

Where I Wander

UMI

No smoking in the house
Saw you running out
Slammed my hand

My patience runnin thin
Gotta go within
My shell

No more time to loosen up yourself
No need to keep fighting what your dealt
You must take precaution in this hell
You were given options where to sail
So

Open waters
Open waters
Where I wander

Clear the chakras
Send me higher
Feels amazing

You should treat yo daughter
Like she matter
With some kind of loving

I'm prim and proper
Show stopper
Feed your fascination now

I know you take time with your feelings
I wanna help out with the healing
Boy
(Boy)

It wouldn't be right to be leaving
I never pick sides but I'm cheerin'
For you boy
(Boy)

No more time to loosen up yourself
No need to keep fighting what your dealt
You must take precaution in this hell
You were given options where to sail
So

Open waters
Open waters
Where I wander

Clear the chakras
Send me higher
Feels amazing

You should treat yo daughter
Like she matters
With some kind of loving

I'm prim and proper
