

Bridgeless

Umphrey's McGee

I'm cleaning out my display case
And self reformed more than half way
Excluding all the specifics
Reacting is to scientific
But the more you breathe open minded air
You'll be remind of why you're here
All the time you were looking
Until you were born now you're stuck here

When all preconceptions are lifted
Growing is more for the gifted
Dialing in my prescription
Relying on old definition
its never a word till its spoken here
many interpret its still unclear
this can't be hard as choosing it
we're all better off than accusing
