

Little Gift

Umpfrey's McGee

[Verse 1]

We are all about to figure out
As we stretch into the roundabout
Simply saw a number on the page
Today, okay

[Verse 2]

Simple luck and a twist of fate
Switch your mind to a different place
Some other time and some other space
Today, oh yeah

[Pre-Chorus]

Are you feeling like your dropping out
Makes no sense at all to fuss about
Always looking for a little gift
Talking to ya' on another trip today

Praise the days that pass away
Circle spinning out of turn
The circle of faces fade away
Come out of the dark you're here to stay

[Chorus]

Are you lonely
Can you show me
Rock and roll me
You know me, so show me

[Verse 3]

Come along and we'll take the blame
There'll never be another time again
I always thought that we were quite the same
These days, oh yeah

[Pre-Chorus]

[Chorus] x2

[Verse 1]
