

Stay My Love

Una Healy

Won't you stay, my love?
You come and go
Won't you stay, my love?
Want you to know you give me just enough
Won't you stay, my love?

Oh, would you be my love?
'Cause I would give you all of me, my love
To the moon and back is not enough
Would you be my love?

You hold my heart right in your hands
And you take control of all that I am
Do you feel the same?
Do you feel the same?

Please just stay, my love
Don't you ever walk away, my love
Even just for one more day, my love
Won't you stay, my love?

You hold my heart right in your hands
And you take control of all that I am
Do you feel the same?
Do you feel the same?

'Cause all of my life
I have been searching
And with you, I'm alive
And all the pain's been worth it
And if only for tonight
Won't you please stay right by my side?

Oh, won't you be my love?
Oh, would you be my love?
'Cause I will give you all of me, my love
To the moon and back is not enough
Would you be my love?
Would you be my love?
Oh, would you be my love?
Would you be my love?
