

Scepter of Vengeance

Unanimated

Pray tell me, how your life ens?
By fire, crippled by age?
In a wet dungeon, by a wonton blade?
The rusty iron takes you home
Brandish the scepter
Rule the land
Pray tell me, your comrades
Shall we feed them to the hungry flames?
Shall their scorched skulls pave the road
Our victory road?
Brandish the scepter
Rule the land
Sharpen the weapons
Flog them
Vengeance
Build the funeral pyre and stack the corpses high
Streams of boiling blood fertilize the soil again
Chaosmos rumble - the world created a new
by the manure that is you
Vengeance
My heart cries for vengeance
Crown
Throne
Robe
Scepter of vengeance
