

## Back Then

### Unaverage Gang

Why you acting shady when I come around?  
Keep that hellcat on me got at least 500 rounds  
Light 'em up, I love it when they hit the ground  
If you wasn't with us back then shut you fuckin' mouth  
Why you acting shady when I come around?  
Keep that hellcat on me got at least 500 rounds  
Light 'em up, I love it when they hit the ground  
If you wasn't with us back then shut your fuckin' mouth

Pussy mothafuckas got way too many opinions  
Now they all just sitting back  
Claiming that they fucking with us  
Only riding for my gang  
9 millimeter never missing  
Staring right back at the devil, when I'm standing in the mirror  
Putting on my ski mask then I load it up  
I'm the night time stalker, feeling dangerous  
Coming close, mothafucka, dare to test your luck  
Hallow points chirpin' when it's entering your cranium  
A lot of things have changed from final overdose  
Kept it real from the gate and no one coming close  
Friends turning into snakes and never hit my phone  
And ain't nobody fucking with me if I'm in my zone, woah

Why you acting shady when I come around?  
Keep that hellcat on me got at least 500 rounds  
Light 'em up, I love it when they hit the ground  
If you wasn't with us back then shut you fuckin' mouth  
Why you acting shady when I come around?  
Keep that hellcat on me got at least 500 rounds  
Light 'em up, I love it when they hit the ground  
If you wasn't with us back then shut your fuckin' mouth

A lot of things never change, it's just how it goes  
I'm feelin' like another number, just a hollow ghost  
I swear to God all these feelings, they be gettin' old  
Crossin' through my mind, and got my guts spillin' on the floor  
It's takes a lot just to wake up everyday  
Just to see I'm worthy to receive another day  
Sick of all the repetition, I know I'll go insane  
But it's sad that my mind is always lookin' for a change  
I'm all alone  
Findin' the unknown  
It's bad enough I have to find the motivation just to go  
I'm all alone  
Fightin' the unknown  
It's bad enough I have to find the motivation just to go
