## Unaverage Gang

Woof  
Watch me creep around your block  
And catch you lacking "Killa"  
Watch me do my dance  
While I keep my finger on the trigger  
Keep on talking shit  
I'm bout to expose you and rip ya'  
Too much barking  
Ain't enough biting, better reconsider  
(Woof)  
Want you to listen closely  
Before I start to shoot  
(Woof)  
Want you to burn in flames over this dispute  
(Woof)  
Every bitch who's named Tvbuu can get it too  
Fuckin' pussy talkin' crazy  
What you going to do?

Mothafucka, watch what bone you pick  
Came to Vegas, you ain't do shit  
Let me know when you wanna throw hands  
This pussy really reaching for anything to gain fans  
Shit  
That's just depressing  
Guessing that you never understood the message  
I meant it when I said "I wish the best"  
And fuck you I think I gotta teach a lesson  
(Woof)  
Think I'm scared of a skinny bitch who shops at hot topic  
You really thought that I would listen  
When you said to drop it? (Yeah)  
Pussy  
I'll let you think that we ain't really bout it  
Come and find out for yourself, you end up autopsied  
Give a fuck what you meant  
Want the smoke?  
Here's some lead  
SVVVGHOUSE suck a dick  
UAV run this shit  
Give a fuck what you meant  
Want the smoke?

SVVVGHOUSE suck a dick

Pussy ass boy don't want the fade  
Just another motherfucker that looks afraid  
My name's Tvbuu, I need clout from Vague  
'Cause you livin' with your mom and can't get paid  
What the fuck is wrong, dude?  
Find somebody else to talk to  
Makin' friends with kids, it's so true  
Gotta find therapy just to get through  
Your ways  
You started shit  
You're not a victim  
Bitch, drop the act  
'Cause you apart of it  
Stop actin' like a Stan  
Be a man and then own yo' shit  
'Cause nothin' gonna change  
You're just putting all your friends in pain  
What a fuckin' little bitch will do for fame  
That's facts  
It's funny how this mothafucka gon' clout chase  
See now that the words out  
We gon' be the reason that he finds a place  
I'm gonna be using his logic  
If you can't help me, you toxic  
You must be livin' in comics  
You don't belong in my topics  
No more
