

Devil's Rejects

Unaverage Gang

Nothing but murder inside my mind, hoe
Take a look 'cause you fuckin' with a psycho
Bloody vision while I'm scopin' when the lights low
Hope you mothafuckas burn and fucking die slow
It's a mothafuckin' bloody massacre up in the mosh pit
Fuck the nonsense, this the Devil's Rejects
Fuck your prayers pussy, we'll meet you on the other side
Out the fuckin' purgatory light 'em up and watch 'em die
Fuck around I'll send you bitches out in body bags
Got our numbers up and now you pussies acting mad
Me and VAGUE will put a shotgun up to fuckin' ass
Bet you never faced the facts that after death there is nothing
left

All these bodies laying on the floor
Smell of all the rotting flesh that you can't ignore
Your trapt inside, see the chains on the doors
Better fight your way out thru the gore
When death is in the pit
Wanna know, we're you feeling all of it?
Gotta breath in, get blood on shit
I wanna see the bodies smash against the fence
Let bloodshed commence
The blood is leavin' from my mind
I'm trapped in it all the time
UAV, not hard to find
Just look, and it will align
Resurrect your soul, Devil's rejects gonna show
The pain and torture that you know
Undead has risen why you so cold

Burning inside me, let me rot and watch me bleed
Trapped within, can't find me
Yea
Can't find me
