

Drag 'Em To Hell

Unaverage Gang

Devil on my shoulder
Don't you understand
It will be all over
UAV represents
Can you feel the horror?
One day you'll have your chance
'Cause it's gettin' warmer
If you try to get a glance
Yeah
Many will die, we gon' keep goin'
So we can survive
Leaving the fakes and the ones that'll lie
Moving forward, wavin' roaches goodbye
I hope you go down that road
Just take what I know
When advice is given, you take it
Put effort soon you'll outgrow

Yung TRIP stay tucked with that strap
Talkin' shit I make your head splat
They think slick with yapping bitch
You better watch your back
All black when I creep with that axe
Got my bitch only fuck from the back
We the realest gang, that's no cap
UAV been on the map
Lately mothafuckas been acting like they been simpin'
Take a trip inside my brain
I'll show you what you been missin'
I'm so sadistic, I'm not kidding
I'll bring panic and villains
A whole demonic fuckin' village
Filled up with my gorillas and killing pigs

Devil on my shoulder
We burn these bitches to the ground
Am I getting colder
'Cause I don't see no one around
Devils take me over
Drag me enemies into the ground
We been taking over
Ain't nobody fit to wear the crown
Look at the life that I'm living
With all of the pain that I'm feeling
I feel like I'm never forgiven
I'm buried
I'm covered
I'm deep up inside of the sinning
I know that I'll always be winning
We stacking up money
Because we just wanna see millions
See the dead bodies
We killing' em
Pick up the gun
And I bust it inside of ceiling
I killed me an angel
