

# FINAL OVERDOSE

Unaverage Gang

Devil livin' inside of me, it's one too many friends that's been doubting me  
Is your heart filled with hate man it's gotta be  
Do I gotta fuckin' kill myself for y'all to notice me? Like fuck, what does it take?  
When I was born was it a mistake, when I was down you said it's okay  
You say that I'm great but I'm mentally drained  
I don't wanna sound like this, I don't wanna live like this  
So close to being done with this shit, I'm collecting my chips  
Too many people that's counting on me that said I gave a them reason to live  
I don't wanna let y'all down, but I feel like I'm stuck in the ground  
I just wanna make y'all proud, but honestly I just feel like I'm dying right now

Will you let me fall asleep, and let me rest peacefully?  
Do they even care at all? Rather watch me burn and fall  
Cold sweats, I'm tryna hold steady  
Heavy chest with with that Glock ready  
Gotta open mouth where the barrels barrels buried  
Try to hold it down but I'm scared of it  
Life's short as a coke addict  
Couldn't keep me back with a straight jacket  
I got no pain with bad habits  
Rather sniff lines than to snap back  
Rather burn and die before they see me fall  
Rather close eyes and embrace the dark  
I don't know if I'm ready for the war  
I think ready just to end it all

Emotions are so bottomless, the pain is just so dominant  
No one here to save me, cause I'm not really that prominent  
What I got to prove?  
Always helpin' others even though I always lose  
I never get the help I need, and don't know what I do  
Running through all the motions, facin' off all my problems  
Followed through on devotion, I never learned how to solve 'em  
The path I'm on I see will never change  
My mind and heart is in the dirt, I don't find it so strange at all
