

HANGING BY A THREAD

Unaverage Gang

Bottles of the pain, that I carry in cases
People always fightin' 'bout who the significant race is
But you just label of the system, what the fuck is more important?
Losing sight of the truth or this life you abortin'
Favorin' the image while these artist usin' mumble rap and makin'
n' these simulated statements
This my jurisdiction, 'cause fakin' doesn't exist in my interest
But learn through these lines of the many things I've witnessed
When shit hits the roof, UAV livin' proof
Make it known, you're not alone with all the fucken' things you go through
And I'm given it up, stuck in this hell, ain't given a fuck
Your bad habits of back stabbin', I interrupt

Let me show you mothafuckas the road that just never ends
Always bleeding UAV and I swear that's Until I'm dead
Corpse surround my bed while my white bitch give me head
HELLRAISER the name always feenin' for the flesh
Tripple 6, why you actin' like bitch?
Oh shit, snitches boutta get split, I'm convinced
That we the sickest in this shit, sickle cell, oh well, man I'm burning in hell
Can't you tell if you fuck with us you taking an L?
Bringing it back to "Witches Nest" when Vague was casting a spell
Test your luck if you fuck with us
I'll bring the ruckus, bloody fuckin' compass pointing south to the Dungeon

I pull up and burn up with burner, I'm Timmy Turner
'Cause I'm wishing that you pussies would stop returning start burnin'
Can't be picking off my earnings, I'm running terror, you squirming
Came releasing all my anger, don't grin and bear you worthless
You ain't nothin' but a pee on, you probably in debt
You keep on flashing all this money, car you driving is wrecked
And you can keep on actin' funny, 'cause shit, karma's a bitch
You might go long for this shit, this as far as you get
Don't fuck with around with the kid, I'll fuck around with ya bitch
Give me the crown, I'll run a town, king of this sound that I give
I'll make my rounds to ya crib, so don't be clownin' me kid
I'll put you down like 6 feet ground with just a rhyme that I spit
