

HANNIBAL

Unaverage Gang

Problematic from the panic, got those satanic habits
I'm reekin havoc on these bastards, settin' us with low standards

UNAVERAGE GANG is so dynamic, that our past is a classic
Why you thinking rappers vanish? cause they stuck in my attic
I'm packin' hurt, so do your worst
Like "Nacht Der Untoten" without the perks
Kill me first, to quench your thirst
Drink "Dead Shot Daiquiri" I'm about to murk
I'm back from fucken dead, I pullin' chains from hell
Startin' up the hill fire, now we all burnin' in hell
Like these lifeless motherfukas, who just want to see us fail
Say farewell to these bitches, who's fakin' on this cartel

I'm breaking jaws, from this fuckin' brawl
See them corpses fall, burn 'em all, raise the burner
Just to fuckin set 'em off
Rerun of "The Shining", Jack Nicholson it was his son, screamin
g bloody murder
Redrum, redrum, redrum
You suffer from the silence
The Cannibalistic tyrant
Feeding off your nectar, like Clarice Starling and Dr. Lector b
itch
You cannot stop me drop bodies with these kamikazes
Disembodied your whole city and left it sloppy
We UAV if you with it then just let us know
March like calvary, raise your weapons and let it snow
