

Hell Bound

Unaverage Gang

Too many missions with decisions, I was always bound
I wish my mind was always open, you can't come around
I'm with my essence in the ground, until my soul is found
Maggots crawl
I'll keep fuckin' fightin', like I lost it all
Too many missions with decisions, I was always bound
I wish my mind was always open, you can't come around
I'm with my essence in the ground, until my soul is found
Maggots crawl
I'll keep fuckin' fightin', like I lost it all

Falling in a downward spiral
Thinking I'm hell bound
One of the many lost souls
That's trapped inside the hotel
Kickin' it with devil
Before I die and I burn in hell
Murdering mothafuckas so often
I got some souls to sell
Don't get fucked up pussy
Don't be wasting all my time
Riding through the crypt
Got yo' bitch choking on my 9
Laying in a coffin
I'm burning inside the fire
Got my demons doing the devils work
And all that's on my mind, mothafucka

Too many missions with decisions, I was always bound
I wish my mind was always open, you can't come around
I'm with my essence in the ground, until my soul is found
Maggots crawl
I'll keep fuckin' fightin', like I lost it all
Too many missions with decisions, I was always bound
I wish my mind was always open, you can't come around
I'm with my essence in the ground, until my soul is found
Maggots crawl
I'll keep fuckin' fightin', like I lost it all

You give in
You give out
Don't listen
Just know now
And all the bullshit that you say
Yeah, I've learned to tune out
The many years with lots of tears
To cry 'em out
I'm feeling like the end was comin'
So come take me out
Not a lot of people wanna listen
But they think I'm goin' crazy
Ain't got a pot to piss in
But still wanna be so lazy
If you wanna go far in life
Then stop droppin' all them maybes
They sit back and call it an act
And all the facts are shady
