Left For Dead

Unaverage Gang

Left for dead we gon' stack these bodies 'til the fall
Bitches scared, body bags of money in the walls
Can't compare, be aware just don't set us off
We gon' pull with that launcher, blows these bitches up
Left for dead we gon' stack these bodies 'til the fall
Bitches scared-body bags of money in the walls
Can't compare-be aware just don't set us off
We gon' pull with that launcher, blows these bitches up

Never gonna find out, nah
Like a bitch, you fall back on law
Don't fight your battles, all talk
And bitch hold your threats and just walk
You gonna get rocked on your block
Got you in the scope and I'm locked
Duck down when you see that I'm stopped
Better be scared when the gun goes off
You hear them sounds, your life is up and I took it down
Final moments are here and now
But you won't change, it'll hurt your style
You live as a child, your stuck in denial
Bitch you are vile, cleanin' you up with some dial
Think you can catch up to me, but the thing is
I'm always ahead and your missing by miles

Walking outside with an AR
15 minutes 'til I'm on the radar
Smoking all these bitches like a cigar
Why you tryin' to pick a fight if you don't want war
Bust out the Glock then I'm ready rock
You pull out the phone and you callin' the cops
Gut up these bitches and turn 'em to props
Do what I want, bitch, don't tell me stop
Grinding my whole to give a fuck
And if you got some haters shoot put 'em the trunk
Bitch We don't fuck around UAV will light 'em up
Just pay attention closely, say a word, I'll cut your tongue

Left for dead we gon' stack these bodies 'til the fall
Bitches scared, body bags of money in the walls
Can't compare, beware just don't set us off
We gon' pull with that launcher, blows these bitches up
Left for dead we gon' stack these bodies 'til the fall
Bitches scared-body bags of money in the walls
Can't compare-beware just don't set us off
We gon' pull with that launcher, blows these bitches up
