

Melted Brains

Unaverage Gang

Killin' every fuckin' body in this game
All the pain that I go through feel same
There's many things you bitches won't admit
But I can see right through you, cut the shit
Couple overdoses, from over powderin' your noses
Watch your body lay flat, lifeless as it decomposes
Why you fuck boys always wanna act like posers?
We didn't choose this fucken game, this game chose us

Rather stay at home then go out fuckin' with snakes
A lot fake ass mothafuckas acting like they amazed
Be the first stab my back but be the last to engage
If you pussies got a problem, we can square up today
Fuck off my shit
Walk through the crypt
Blade to yo' wrist
Now watch all that blood drip
Yuh
All about my money never catching me rest
Keep on sneaking with them disses
Will get yo' shot in the head, pussy boy
