

No Escape

Unaverage Gang

Here's the lost souls I've captured for you
I hope you enjoy them
Hell burns inside of you UNAVERAGE GANG
Grab the locket and lock the world shut
Because it belongs to you

Lost in my ways
Everything lately been feeling so strange
Strange things come my way
Stuck in maze, the one that I can't escape
Can't escape my mind for days
Lost in my ways
Everything lately been feeling so strange
Strange things come my way
Stuck in maze, the one that I can't escape

My fuckin' mind busted open, never leave my room
When you got so much to lose, you follow truth
And it's starvin' you
Once you find it's done
It's kills you all over, all over
Guts hang, let me numb the pain
I go insane as fill my veins
Just let it out
Only thing that calms me down
When you try to stay sober
It's kills you all over, all over

Every bad decision, is leading me up to this life
Every single bounty I've done
You know that I kill it in sight
I let the smoke settle, when you least expect it I pop off like a gun
But I'd rather stay close to the shadows
Like valik the evil has risen the worse yet to come
Too underrated, never complicated, I ain't here to get famous
Striking lightning like I'm mothafuckin' Raiden
1000 corpses that I'm leaving in the basement
See this whole worlds doomed
I assume the end is soon, so I'm really boutta act a fool
UAV in pursuit
So grab your torch and light up the fucking room
To the moon

Lost in my ways
Everything lately been feeling so strange
Strange things come my way
Stuck in maze, the one that I can't escape
Can't escape my mind for days
Lost in my ways
Everything lately been feeling so strange
Strange things come my way
Stuck in maze, the one that I can't escape
