

Rest My Soul

Unaverage Gang

I know that shit won't let you go
Left alone
Just let me go
I hear that time has stopped before
Rest my soul
Then again
I know that shit won't let you go
Left alone
Just let me go
I hear that time has stopped before
Rest my soul
Then again

Yeah
Then again it's always hard to keep my mind straight
Give a fuck about a bitch
It's just a long break
Keep on talkin' all that shit until it falls down
I'll be here to hold it down
Sick of all they run arounds
All the shit you say is false, I fuckin' wonder
You gon' end up in a ditch
And that's fine I'll put 'em under
On the shoulder, I'll finally take it off the mind
It takes two to fly straight
Castin' out the hooks, and took the fuckin' bait
It doesn't matter what the world has to show
As long as everybody gettin' by from their lows
Never minded all the fuck ups, taken time just to know
And I'm always diggin' deeper from the mind to soul

I know that shit won't let you go
Left alone
Just let me go
I hear that time has stopped before
Rest my soul
Then again
I know that shit won't let you go
Left alone
Just let me go
I hear that time has stopped before
Rest my soul
Then again

I can feel my heart palpitating
Every time I talk about the devil
I know that he's sitting there waitin'
I knew since a kid I was just a lost cause
Now I made a bond with UAV until the graveyard
One step forward take a step back
Ain't nobody left that's real man
And that's a fact
UAV in my blood no denying that
Grinding 'til the end of my days
Until my last breath
Lost underneath been through hell with my brothers
Every mothafucka doubted us

So nothing you can tell us
Thankful for you bitches showing off your true colors
Fuck a hater
You can catch me rolling with the devil
As above so below
Repping UAV until I turn into a ghost
As above so below
Repping UAV until I turn into a mothafuckin' ghost man
