

The Breakdown

Unaverage Gang

It's movin' far away, thought I never see this day now
Gettin' lost in the drank, I'm feelin' all this pain now
It's movin' far away, thought I never see this day now
Gettin' lost in the drank, I'm feelin' all this pain now

Souls flyin' over burnin' candles
Never gonna rest until I cannot handle
All my fuckin' pain and depression
That be on a daily basis, did I forget to mention
It's the truth, what lies beneath you
UAV permanent like some scar tissue
This that fuckin' life and we gonna live it
Keep on bringin' you that new and on our fuckin' graves we mean
it

It's movin' far away, thought I never see this day now
Gettin' lost in the drank, I'm feelin' all this pain now
It's movin' far away, thought I never see this day now
Gettin' lost in the drank, I'm feelin' all this pain now

Hoping you respecting my addiction
Addicted to that UAV vision
But lately I just cannot see clear
When I looked up in the mirror, wish I can
Disappear, but you know that's his game plan
Turned me into a mad man
Life is overflowed with fake fuckin' people, gotta toss 'em to
the trash can
