The haters hopin one day that will crash  
Runnin off fumes hopin that I won't burst into flames from this flash  
Crushin the past  
Tryin to straighten my life and not given out, make it count, not like my ba  
nk account  
Tired of not gettin love from my home town  
Now they be blowin my phone now  
And it's alright  
But I'm still given love to the night, the sky gonna fall when I creep with  
the knife  
Talkin that shit and they payin the price  
Yuh  
Hope that you'll see  
The way that the demon been followin me  
Holdin the key to the exodus, weight of the world and my soul gonna freeze  
Yeah
