

Break U Off

Uncle Kracker

Whatcha come down here for?
I've come to break you off
Whatcha come down here for?
I've come to break you off

Whatcha come down here for?
I've come to break you off
Whatcha come down here for?

I ain't looking for love, but I got plenty to give
You come around with a frown and you leave with a fat lip
I ain't shakin' but you can bet the heat's back
So keep that, keep that, believe that

No rights underneath my wrongs
I spend a lot of time where I don't belong
There to watch you fall, ain't a lot to ask
All I need is a match and a gallon of gas and I'm

I'll take you higher, baby
I'll take you higher, baby
I'm gonna set your lonely world
On fire, baby

Whatcha come down here for?
I've come to break you off
Whatcha come down here for?
I've come to break you off

Whatcha come down here for?
I've come to break you off
Whatcha come down here for?
I've come to break you off

Break you off, break you off
Break you off, break you off
Break you off

I only got one nerve but I'm gonna give you half
And you can feel my pain before you feel my wrath
All my anger, all my woes
I hope you got some time because it's gonna go, slow

No joke, I'm the reason you breathe
I'm the first one in and I'm the last to leave
You're gonna see me, you're gonna need me
You're gonna burn, burn, burn believe me

I'll take you higher, baby
I'll take you higher, baby
I'm gonna set your lonely world on fire, baby

I'll take you higher, baby
I'll take you higher, baby
I'm gonna set your lonely world on fire, baby

Whatcha come down here for?

I've come to break you off
Whatcha come down here for?
I've come to break you off

Whatcha come down here for?
I've come to break you off
Whatcha come down here for?
I've come to break you off

Break you off, break you off
Break you off, break you off
Break you off

I dunno why you've come down here
But I've come to break you off
I dunno why you've come down here
But I've come to break you off

I dunno why you've come down here
But I've come to break you off
I dunno why you've come down here
But I've come to break you off

I dunno why you've come down here
But I've come to break you off
Whatcha come down here for?
