

Cruising Altitude

Uncle Kracker

All I wanna do is get you high
Enough to lay back and enjoy the ride
Smoke write your name across the sky
Between the Stars and the bars that were in tonight
Working 40 hours down here on the ground
Makes me wanna pick you up and forget about
All the paycheck problems under the clouds
There's a beautiful view up there looking down

Hey, Hey
Tell me what I gotta do to get you up to cruising altitude
And in the mood for a little good time flying
Hey girl, we can turn these neon lights into a first class Friday night
That's right, I wanna make you mine
All I wanna do, all I wanna do is be with you, at cruising altitude

We got 6-12 and a bucket of ice
Your smile lights me up light satellite
When we get to where we're going it will feel like
They just turned off the seat belt sign

Hey, Hey
Tell me what I gotta do to get you up to cruising altitude
And in the mood for a little good time flying
Hey girl, we can turn these neon lights into a first class Friday night
That's right, I wanna make you mine
All I wanna do, all I wanna do is be with you, at cruising altitude

Let's go find that perfect buzz
Somewhere between the moon and us
Let's climb on in this corner booth
And hit that cruising altitude

Hey, hey
Tell me what I gotta do to get you up to cruising altitude
And in the mood for a little good time flying
Hey girl, we can turn these neon lights into a first class Friday night
That's right, I wanna make you mine
All I wanna do, all I wanna do is be with you, at cruising altitude
