

Lonely Lets You Down

Uncle Kracker

Every other night at the end of the bar
Lookin' like lookin' like a movie star
It's always party time
Late night, lighting up a cigarette
Sittin' here sending out a million texts
I can read between the lines

Yeah, you keep your guard up so you don't get hurt
Love ain't nothing but another dirty word
Wipe the smile off your lips
When the clock on the wall
don't say, "Last call,"
But it's later than you think it is

When the lonely lets you down
And you need me to come around
3 a.m. feelin' lost without a friend
Ain't no place to be found
When the lonely lets you down

Every now and then, just stare into space
I don't wanna be another look on your face
I know just how you feel
Tired of foolin' these fools
With your make believe cool and
Wishing you were holding onto something real

When the lonely lets you down
And you need me to come around
3 a.m. feelin' lost without a friend
Ain't no place to be found
When the lonely lets you down
(when the lonely lets you down)

Gonna want me around
Yeah, you're gonna want me around

3 a.m. ain't the kinda friend you wanna wrap your arms around

When the lonely lets you down
And you need me to come around
3 a.m. feeling lost without a friend
Ain't no place to be found
When the lonely lets you down (when the lonely)
When the lonely lets you down (when the lonely)
