

Rockabye

Uncle Kracker

Stars above are lining up
See you in the morning sun
Bring your dreamin' into bed
Lay down your sleepy head
If there's monsters hiding underneath
I won't even let them touch your feet
Say goodnight to the moonlight and fade away

Rockabye
Rockabye baby
Rockabye all night long
Close your eyes and make a wish
I'll whisper you a song
As the world outside just gets more crazy
You let go and I'll keep holding on
Rockabye
Rockabye baby
All night long

Ain't no need for counting sheep
Just every one of your heart beats
Candle flicker down the hall
Paintin' pictures on the wall
Oh, you know I can't help but steal one more kiss
I can't look away 'cause I don't wanna miss one more
Goodnight to the moonlight and fade away

Rockabye
Rockabye baby
Rockabye all night long
Close your eyes and make a wish
I'll whisper you a song
As the world outside just gets more crazy
You let go and I keep holding on
Rockabye
Rockabye baby
All night long

I'll be your night light
I'll be your blanket when it's cold
I'll be your lullaby
I'll be right here, and I won't let go

Rockabye
Rockabye baby
Rockabye all night long
Close your eyes and make a wish
I'll whisper you a song

As the world outside just gets more crazy
You let go and I'll keep holding on
Rockabye
Rockabye baby
All night long
Rockabye
Rockabye baby
All night long
