

Hallelujah

Underoath

Cut the lights
Face yourself
We're not dreaming
This is hell

I can't remember no remember yesterday
I got a taste for apathy I let it wash away the dream
I wanna know the madness and how it eats me inside out
I wanna feel the echo the shame coursing through my veins

Cut the lights
Face yourself
We're not dreaming
This is hell
Hallelujah

I've been awake so long reality escapes
I can't find a place to sleep let the devil swallow me
I'm swimming in the madness the living water that I drink
I wanna be the virus
Decay

This is madness maybe in my head

There's a hundred million ways to feel alive
Time flies trying to find a place to hide
Get a grip
Get a grip
Take a different number
Get a fix

Will I ever get a break from this
Will I ever get away from it
Make it stop

Cut the lights
Face yourself
We're not dreaming
This is hell

This is fucking hell!
Hallelujah!
This is fucking hell!

Cut the lights
Face yourself
We're not dreaming
This is hell
