Calm You

underscores

You need to bring it up
I tried to write it all down
It wasn't good enough (Yeah)
These walls ain't thin enough
I tried to figure it out
Before I put 'em up

I hit a higher high
Then we say "goodnight"
Hope you mean well
Help me if you need help
I'll wait another day
Tell myself that it's okay
(It's okay, it's okay, it's okay)

Is it what you wanted?
Is it what you wanted now?
'Cause someone's gotta call it
And someone's gotta calm you down
But is it what you wanted?
Is it what you wanted now? (Yeah)
'Cause someone's gotta call it
And someone's gotta calm you-

Wished you every 3 to 5
Turned to 10 and it was likely
I was only 19 (Yeah, yeah, yeah)
I lose my grip, I hesitated (Yeah)
Be a little patient
I'm usually adjacent (Yeah, yeah, yeah)
Hit a high, a high
Never said "goodbye"
(Tell me details, never stress the details) (Yeah)
About a call away
And everything will be okay
(It's okay, it's okay, it's okay)

Is it what you wanted?
Is it what you wanted now?
'Cause someone's gotta call it
And someone's gotta calm you down
And is it what you wanted?
Is it what you wanted now? (Yeah)
'Cause someone's gotta call it
And someone's gotta calm you down
And is it what you wanted? (Is it what you wanted?)
Is it what you wanted now?
'Cause someone's gotta call it (Call it, call it)
And someone's gotta calm you down
And is it what you wanted? (Is it what you wanted?)
Is it what you wanted now?
'Cause someone's gotta call it (Call it, call it)
And someone's gotta calm you down
