

# Drop You

underscores

What's the world like  
Can you let me know  
Can you let me know

What's that girl like,  
Can you let me know  
Can you let me know

Oh God  
It's only a matter of time  
Until there's nothing [?] something you were made for

Help me  
Full of dopamine  
Like a whole day last week  
My skin's not thick enough  
Look what they first thought of me  
Oh God  
Oh God
