

Dry land 2001

underscores

(It's the new wave of the future!)

C-C-Cold sweat, body tell me didn't sleep right
(Cold sweat, body tell me didn't sleep right)
Spinning circles, eyes are open in the dead of night
(Spinning circles, eyes are open in the dead of night)
And you don't see these off the coast that often
(See these off the coast that often) (Yeah!)
But I remember New Years when I told myself I'd open my mind (New Years when
I told myself I'd open)
(My mind)
Someone's gonna call you (Someone's gonna call you)
When it's early in the morning (It's early in the morning)
And I didn't really want to
But I'm starting to think that my mind's not the only thing spinning around
and around
Stay alive, 2007 F5
Highway 59, I don't know how to drive
But I remember I was falling
All I had to do is open my eyes (My eyes)
(Yeah, yeah, yeah!)

I wanna know what I'm doing
I wanna know what I did
For you to chew me up and spit me out
I wanna know what I'm doing
I wanna know what I did
For you to chew me up and spit me out

My love
You know that this is rare
The thrill from breathing in the air
You know this is my biggest fear
I can't decide right now, I can't decide
Was caught up
Never guessed the day would have gone by like this
But not a day goes by without me thinking of you! (Yeah!)
I guess I don't mind the wind

I wanna know what I'm doing
I wanna know what I did
For you to chew me up and spit me out
My love
You know that this is rare
The thrill from breathing in the air
I wanna know what I'm doing
I wanna know what I did
For you to chew me up and spit me out
Look out, you know that this rare
So why the fuck am I still in the air?

I wanna know what I'm doing
I wanna know what I did, uh, oh, oh, oh
My love
I wanna know why
I wanna know what I'm doin, know what I'm doin, know what I'm doin, know wha
t I'm doin

I wanna know-oh-oh what I'm doing
Chew me up and spit me out
I wanna know what I'm doing
I wanna know what I'm doing
