

(We don't give a fu-)  
(It's the new wave of the future!)  
(Celebrity)  
(Am I extreme?)  
(Best friend ever, haha...)

Drive the car off the main road  
I took way too much  
Drown our drugs in the Panko  
That's just throwing up  
And I don't wanna get sick  
I've got a bullet to bite before I drive myself crazy

Go to the park we could lay low  
I drank way too much  
I got exactly what I came for  
That's just twenty-one  
And if I'm gathering spit  
That'd be my plans for the night  
But I'm not as paranoid lately

Did I swallow my tongue?  
Did I puncture my lungs?  
"When all is said and done," (Said and done)  
"You live your life in fear"

I'd sell my soul for a halo (Halo)  
I think way too much (I think way too much) (Too much)  
Things should be okay when you say so (Say so) (Too much)  
That's just not enough (Just not enough) (Too much)

And I could never pull trig (Pull trig)  
Been seven years since I cried  
It'd take a lot for you to  
Break me (I don't give a fuck!)
