

Leave it to me  
Give me a week  
I'll show you why you should hate me, hate me  
Leave it to me  
Give me a week  
Show you all the time you've been wastin', wastin'  
Leave it to me  
Give me a week  
I'm scared that we'll just get angry, angry  
Leave it to me  
Give me a week  
Have you seen what I've done to you lately

And it happened with him too  
I'm scared it'll happen when I'm with you  
A couple days that I've already been through  
I could see us fallin' out, fallin' out  
And it happened with him too  
I'm scared it'll happen when I'm with you  
A couple days that I've already been through  
I could see us fallin' out, fallin' out

(I could see us fallin' out, fallin' out)
