

# Pay Attention!

underscores

What you tryna do? (What you tryna do, yuh yuh)  
It's 7:32 on a Saturday  
Is it chilly, is it cold out?  
Let's go to a show  
Check to see, it might be sold out  
I just checked the time (I just, I just checked the time, yuh)  
You asked me "What's your sign?"  
What does that mean?  
I think I'm a Taurus, you're a Cancer  
Caught up in semantics  
Do you like my dancing?  
(Fuck!)

Oh no, I'm good  
But it's been a couple months  
And I wanna get paid  
Well it must be in my bloodline  
Everybody tongue tied  
Said we had a fun time  
Didn't we?  
Keep talking 'bout imaginary scars  
Even though they're faded away  
Better watch me make your head spin  
Center of attention, center of attention

It's all good, you're fine (It's all good, you're fine, yuh)  
Why's that weighing on your mind?  
You're like 18  
Matter fact in April I went 19  
Time be tryna spite me  
I think about you highly  
Never in the mood (never in the mood)  
Always 'bout my attitude  
All these bad lines  
Never read my lyrics, they're an eyesore  
Don't know what I write for  
I should live my life more  
(Shit!)

Oh no, I'm good  
But it's been a couple months  
And I wanna get paid  
Well it must be in my bloodline  
Everybody tongue tied  
Said we had our fun time  
Didn't we?  
Keep talking 'bout imaginary friends  
Even though they're faded away  
Better watch me make your head spin  
Center of attention, center of attention

And you, center of attention  
Center of attention  
Center, ah yeah  
And oh, center of attention  
Center of attention

Laze around in my bed  
Woke up late yet again  
Fuck around, play pretend  
On my own, independent  
Song I gotta end it  
Center of attention  
Center of attention  
How's your day?  
How's your week?  
You should ask about me  
I've been good, let me speak  
I've been running out of tangents  
Wasn't as intended  
Center of attention  
Center of attention  
Stuck again in my mind  
What you doing, hit my line  
Play the song one more time  
In the room that I got left in  
Palpable the tension  
Center of attention  
Center of attention  
How are you?  
Wanna work?  
Spilled my lunch on my shirt  
I'm the best, I'm the worst  
Do you like it when I'm stressing?  
Use it as a weapon  
Center of attention  
Center of attention
