

And it feels like I've redeemed myself  
And it feels like I've redeemed my-  
Redeemed myself

I will try to be there  
Try to be there

And we should do this more often  
And we should do this more often  
(And we should do this more often)

And it's about damn time  
Time to swallow my pride  
If I said "I'm sorry" you'd accept it  
Always feel the worst  
Won't be losing on a best friend  
In the room I live  
We're trying to place that kid  
Could be Arizona, maybe Texas  
Nausea for breakfast  
(Piercing's got infected)

Maybe he's in Mexico  
But you said I should probably know  
'Cause my house is made of sandstone  
And I'm really glad you're where you are  
And that you're bringing home your new guitar  
You wanna join me at the sandbar
