

## Your favorite sidekick

underscores

(Celebrity?)  
Worldwide superstar, running out of mileage  
Can't sleep, 2AM, I don't really mind it  
Ring ring, pick it up, I could be your sidekick  
(I'm your favorite sidekick)  
Fake smile, run it back, guess I've never tried it  
OC, double dose, off the psilocybin  
Ring ring, pick it up, I could be your sidekick  
(I'm your favorite sidekick)

A-A-A-All dressed up, nowhere to be, ever  
I could rot, let's do it together  
(Hey, what's up?) Voicemail, think you're so clever  
Shut up, come on! (Yeah, it's now or never)  
Black Docs, white socks, 2014 cliché  
I'm bored, aux cord, let me be the DJ  
We're so right 'bout everything that we say  
We're so cool! (Bratmobile on the B-way)  
(Best friend ever!)

And I've been eating toothpaste  
Cause you gave me toothaches  
And this could go two ways now  
I think you drank my Kool-Aid  
And I've been up for two days  
Why are the things that you say always in my mouth? (Uh-oh!)

It's the new wave of the future!

I can feel pain all around me  
But I know it's never gonna be mine  
Pick a date and we can kill some  
Pick a date and we can kill some time  
You can find me in the middle of nowhere  
Everybody's dying but I guess it's alright  
I told you everything was gonna be  
I told you everything was gonna be fine
