Underworld

A force of nature  
I shield my eyes  
The metal sings  
The river of everything  
Blow it all  
You did it again  
Fall down, slam  
The winning hand  
Everybody different  
Everybody the same  
The consequence of actions  
It's a [?]  
A storm dropped in the water  
The ripples get everyone  
A change, [?] coming  
Living with a fall out  
I'm not leaving  
I'm not looking in  
Drop the violence  
Do you wanna dance  
Or sit on your hands

To the shadow of the wind  
A force of nature  
Crossing over  
I shield my eyes  
The metal sings  
The river of everything
