

# Eradicator

Unearth

All fear this  
Mark the day  
From this point there is only decay  
I set my sights on ruin  
There'll be no other way

Full force; overrun  
These battered lands I roam  
Harnessed power of the sun  
To inflict my rule  
All who threaten me  
Shall pay with their life

Kneel down before your Empress  
Great Ruler of Extinction  
Beckoned to my last wish  
Enslaved in my dominion

Lost souls to reap  
I decimate the weak  
Seizing all control  
With every victory  
Open up the gates  
A full assault hell  
Open up the gates  
I am the Omnipotent

A torrid romance  
As life turns to sand  
Eternal you'll sleep  
I will start again

This was all you had  
This was all you had

The slaughterers will haunt

For eons I will march  
Eradicator, eradicator  
For eons I will march  
Eradicator, eradicator

A torrid romance  
As life turns to sand  
Eternal you'll sleep  
I will start again

A torrid romance  
As life turns to sand  
Eternal you'll sleep  
I will start again

This was all you had  
The is all we have
