

# The Wretched; The Ruinous

Unearth

Don't offer us your brevity  
Don't force on us complacency  
The consequence is all life

Now obsolete  
On the stand  
Set to trial by the mothers command  
We're on our knees  
In the Anthropocene  
No it's never gonna stop  
This world is lost  
The fires tear through our lands  
Atrocities bestowed by man

No heroes of our time  
Reset - year zero  
Everlasting shadows  
Scorched earth, the ashes swarm  
Our breath runs shallow  
Befall - the storm

Rising of the seas  
Toxins in the skies  
The angered Terra stalks  
When the light is gone  
Desperation cries  
Annihilation of life  
In comes the night

Lambs to the slaughter

Torrid heat sears all flesh  
Ancient plagues resurrect  
Famine fuels mass unrest  
The Human contagion  
Strike down the Wretched, the Ruinous  
Strike down the Enders of all life

No heroes of our time  
Reset - year zero  
Everlasting shadows  
Scorched earth, the ashes swarm  
Our breath runs shallow  
Befall - the storm

The fires tear through our lands  
Atrocities bestowed by man

No heroes of our time  
Reset - year zero  
Everlasting shadows  
Scorched earth, the ashes swarm  
Our breath runs shallow  
Befall - the storm

No heroes of our time

No heroes  
Year zero  
No heroes of our time  
(No heroes of our time)

No heroes  
Year zero  
No heroes of our time  
(No heroes of our time)

No heroes (We are the Wretched)  
Year zero (We are the Ruinous)  
No heroes of our time (We are the ending of all life)  
(No heroes of our time)

No heroes (We are the Wretched)  
Year zero (We are the Ruinous)  
No heroes of our time (We are the ending of all life)
