Uneven Structure

Hail

Walls of rain washes out the innocence

The magnificent flood carves the letters down the flesh

Hierarchy slips into the felt strings - Alterating it all

Facing the preys as if they were real threats - Schism

Paranoid illusions leading to an higher step of evolution

A lull in the storm

Scattered clouds

At the break of the day

The allayer of fears

Dissipates the marks

Dries out the swamping lands

As water resorbs, ground can finally be seen

Very first sensation of an embodied existence

Fertility welcomes an higher comfort

An abode where experiences can melt.
