Ungu

Cududuuu cududuuu cududududududuuu  
Cududuuu cududuuu cududududududuuu

Look up to the sky  
The stars are shining bright for you  
Tell me what to do  
It's waiting for you

Oh, why you are not here with me  
I lose a better part of me  
I spending all my time  
Thinking of you

Cududuuu cududuuu cududududududuuu  
Cududuuu cududuuu cududududududuuu

You and me living in the sweetest memories  
And here with you is all I want to do  
Loving you, be with you and stay with you

All I wanna do is spend more times with you  
And all I wanna do is spend my life with you  
All I wanna do is staying there for you  
All I wanna do forever here with you

Cududuuu cududuuu cududududududu  
Cududuuu cududuuu cududududududu

Missing you, I feel so lonely without you (feel so lonely)  
I give up, without you I give up  
Be with you and stay with you (all I wanna do)

All I wanna do is spend more times with you  
All I wanna do is spend my life with you  
All I wanna do is staying there for you  
All I wanna do forever here with you

All I wanna is, all I wanna is, all I wanna is you  
It's all I ever, all I ever, all I ever, all I ever do  
All I wanna is, all I wanna is, all I wanna is you  
It's all I ever, all I ever, all I ever, all I ever do

Be with you and stay with you  
All I wanna do, all I wanna do (to be with you and stay with you)  
All I wanna do, all I wanna do (to be with you and stay with you)  
Forever (to be with you and stay with you)  
All I wanna do, all I wanna do (to be with you and stay with you) oh
